EXPERIENCE

Hi Finance

CTO / Co-Founder

Canada | May 2025 - Present

- Leading product and technology strategy at a fintech neo-bank helping post-secondary students in Canada secure funding for their education.

Major Technology

CTO / Co-Founder

San Francisco | Mar 2024 - May 2025

- Co-founded pre-seed startup, raised \$2.5M and worked hands-on with customers across commercial HVAC, fast-casual restaurants, and dental insurance.

Verkada

Head of Software, [Intercom](https://www.intercom.com/)

San Francisco Bay Area | 2021 - Dec 2023

- Grew a team of engineers to launch Verkada's [Intercom product line](#) — built under a tight deadline and Verkada's most successful product launch to date.

Dor Technologies

Head of Algorithms (AI/ML)

Lead Systems Architect

Cofounder

San Francisco | 2015 - 2021

- Founding engineer. Shipped a battery-powered, neural-net-driven IoT device that tracks customer foot traffic across thousands of retail sites.
- Built the data pipeline and fullstack analytics platform that processed millions of events across thousands of edge ML devices and drove insight for Dor's customers.

CareerLabs

Technical Cofounder

San Francisco | 2015 - 2016

- Lead CareerLabs' team of engineers to build a scalable job search and employer rating platform. Launched careerlabs.com in 2015 (Closed 2017)

Mark One / MyVessyl

Software Engineer

San Francisco | 2014 – 2015

- Designed and built the backend infrastructure that supported an AI driven consumer hardware device.

Apple

Software Engineering Co-op

Cupertino | 2013 - 2014

- Improved the scalability of the MDM product line
- Created a fullstack application in JS that processes hundreds of thousand of tickets in order to produce actionable insights.

InstallNet & Aertight Systems

Software Engineering Intern

Annapolis, MD | 2011 - 2012

- Built several internal business tools to automate some repetitive tasks
